

Access Specialized Care

Access Specialized Care is dedicated in providing medication packaging needs for nursing homes, assisted living facilities, and special needs facilities. Our program gives you a medication system that is easy to manage and dispense.

Multiple medications for multiple patients in your care can be challenging. Our unique, pre-packaged medication systems are designed to offer you time savings, while using technology dedicated to your patient's safety. With medication packs clearly labeled with patient information and medication schedules, our systems help you keep track of when patients' need to take a medication and at what time.

- Greater accuracy in medication management
- Ease of patient administration
- Tamper-proof packaging
- Pocket-size portability
